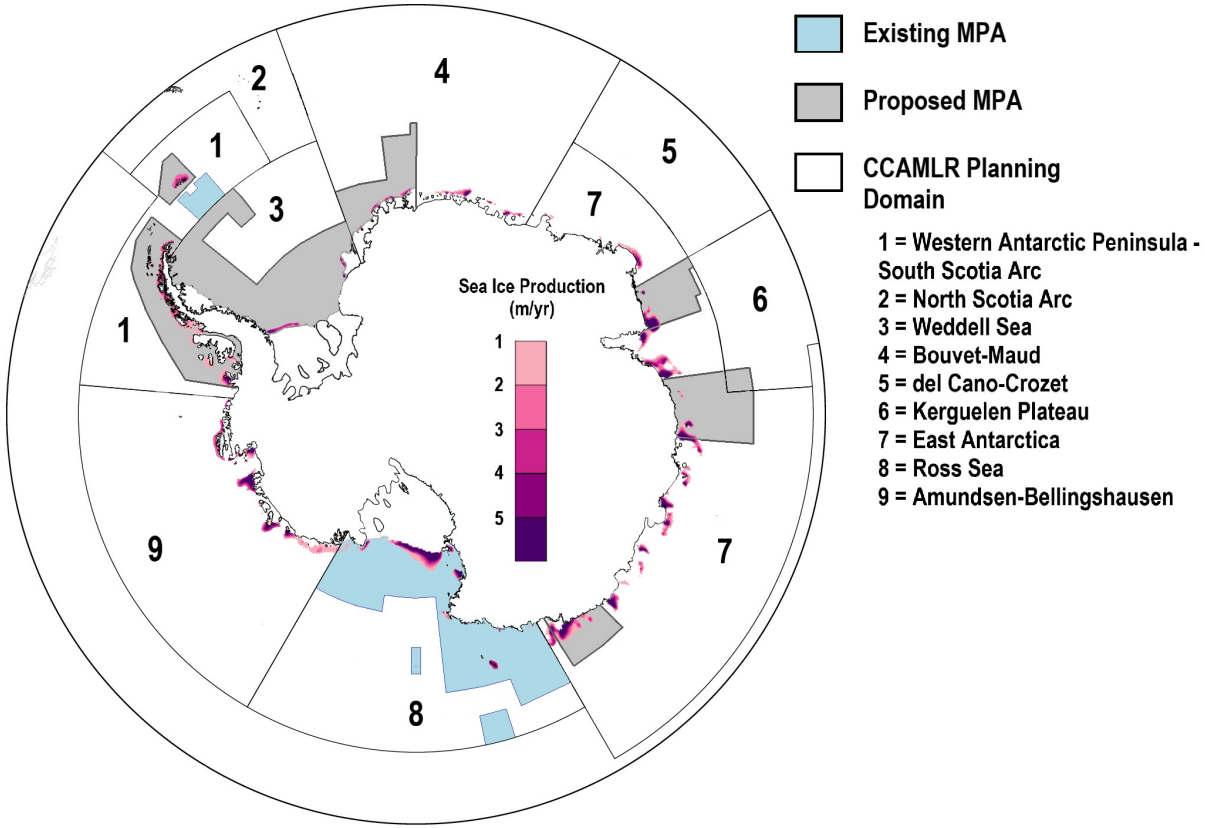
DuVivier – Hot spots in the Ice

Alice K. DuVivier, National Center for Atmospheric Research (NCAR)
Collaborators: Cassandra Brooks (CU Boulder), Stephanie Jenouvrier (WHOI), Sara Labrousse (CNRS-LOCEAN), Matthew Long (NCAR), Marika Holland (NCAR)

- New project → Started September 2021
- **Purpose**: Create a tool to search maps for forecasts of different Antarctic ecosystem inputs (e.g. Primary productivity) that are relevant for possible protection by the Commission for the Conservation of Antarctic Marine Living Resources (CCAMLR).
- Science-policy-public interface partners:

ASOC Pew SCAR Sea Legacy


CCAMLR Planning domains for Antarctic Marine Protected Areas (MPA)
