DEVELOP National Program

Shaping the future by integrating Earth observations into global "decision making"
What is DEVELOP?

DEVELOP, part of NASA’s Applied Sciences Program, addresses environmental and public policy issues through interdisciplinary feasibility projects that apply the lens of NASA Earth observations to community concerns around the globe.

DEVELOP is a dual-capacity building program: Partners & Participants
How do DEVELOP Projects Work?

Project Characteristics

- Addresses an actionable environmental community concern
- Collaborate with decision making organizations who can benefit from using NASA Earth observations to enhance decision making
- Achievable over 1-3, 10-week terms
- Science advisors & mentors from NASA and partner organizations ensure scientific merit

DEVELOP is rapid feasibility: 10 Week Long Projects
How to Get Involved

• Propose a project idea
• Volunteer to advise a project

Deadline for Spring 2016 Proposals:
Late September
Thank You!
