Bunn–Biodiversity, Connectivity, and Forecasting in GKNP

David Bunn, Colorado State University
Jody Vogeler, Neil Carter, Sharon Hall, Melissa McHale, Derek Fedak, Steve Filippelli

End-users and partners:
- SANParks
- Associated Private Nature Reserves (APNR)
- Organization for Tropical Studies (OTS)
- The Nsasani Trust
- Agricultural Research Council (ARC)
- South African Expanded Freshwater & Terrestrial Environmental Observation Network (EFTEON)

Consequences of rewilding and urbanization in GKNP

- Fence removal and rewilding of cattle farms and APNR
- Urbanization and rewilding of communal areas

Earth Observation data quantifies LULC changes

- Landsat Time Series
- Sentinel-1, GEDI, Aerial Imagery

Historical datasets, species counts, and species distributions

Management decisions co-developed across boundaries and institutions

- Fire
- Water Holes
- Fences, Corridors, and Settlement
